Scotia Community Services District Staff Report

DATE: October 5th, 2023

TO: Scotia Community Services District Board of Directors

FROM: Steve Coppini, General Manager

SUBJECT: Consider motor vehicle damage claim against the Scotia Community Services and

make a determination in accordance with Ordinance 2020-1 – Title IX Claims Ordinance

RECOMMENDATION:

The Administrative staff recommends that the Board review additional supporting pictures and document provided by the claimant and make a determination in accordance with Ordinance 2020-1 – Title IX Claims Ordinance.

ACTION:

Consider motor vehicle damage claim and make a determination in accordance with Ordinance 2020-1 – Title IX Claims Ordinance

DISCUSSION:

At the September 21st, 2023, Board Meeting, The Board of Directors considered the Claim and continued the item to today's date in order for the claimants to submit additional supporting pictures and documents pertaining to the damages to their vehicle. The claimants emailed the additional information as requested. At the Board's direction staff has reviewed and considered the additional information provided by claimants. Further, Staff reached out to The District's Insurance Company SDRMA' risk management personnel to review the claim, including the information provided by claimants. Following their review of the Claim, SDRMA recommended that the claim be denied on grounds that the circumstances surrounding the incident do not give rise to District liability. Further, SDRMA advised that if the Board decided to submit an insurance claim to cover the repair costs claimants seek, it would be denied by the Chief Risk Officer for the same reasons. Further, in light of claimants' prior representation to this Board that they will look to sue the District should their claim not be paid, SDRMA advised that it will represent the District in any such litigation, only requiring coverage of travel expenses.

Based on the review of the additional information provided by claimants, and upon consultation with SDRMA, it is recommended that the Board reject the claim. However, should the Board conclude contrary to SDRMA that the District has some responsibility for the damages to claimant's vehicle, it is recommended that the claim be allowed only in part in relation to the damage to the one tire and wheel, excluding any future costs future potential damages.

According to Ordinance 2020-1 – Title IX Claims, the board can make the following determinations:

- A. Reject the claim entirely.
- B. Allow the claim in full.
- C. Allow the claim in part and reject the balance of the claim.
- D. Compromise the claim or settle the claim if the liability or amount due is disputed.
- E. Take no action, thus permitting the claim to be denied by operation of law pursuant to Section 912.4(c) of the Act.

Amended Request for Reimbursement/Robert and/or Elaine Page-damage to vehicle FW: Scotia Community Services District "Reqst for reimbursement of damages to vehicle-8/9"; Signed SCSD Claim Form-amended.pdf; Mid City.pdf; payment recpt.pdf

Hello Amber,

I am submitting an amended request for reimbursement that I wish to have added to the 9/21 meeting agenda.

As you know, we are requesting a reimbursement for costs associated with the repair of our vehicle that was damaged on 8/6/23.

After making the necessary tire replacement, the car was still unsafe to drive so we took it to Mid City Honda for diagnostic.

They found additional damage and we had the repairs made so we could make the vehicle driveable again.

Please find our original email from 8/22 with the original claim and a new, amended claim form along w/ additional receipts.

We are asking for the opportunity to file a claim on the general liability policy for SCSD or, direct reimbursement by same.

Thank you for your help. Please let me know if you have any questions or need anything else.

On the road leaving the Scotia Park(Fireman's Park), across from soccer field. See attachment for location

Circumstances:

We were driving out of the Fireman's Park area and approx across from the soccer field, my rear tire was punctured and the rim was damaged beyond repair when I accidentally drove over a metal plate that had been dislodged from it's "seat" in the roadway. It looked to be a sewer or water line access hole that was covered up by the plate. I don't know what caused the plate to be askew, but the corner of the plate was sticking up high enough that it punctured the sidewall of my tire when I drove over it. There was NO SIGNAGE, OR CONE, OR ANY NOTIFICATION that the hazard was there and I did not see it as I was leaving. I feel this damage could have been avoided if there had been some kind of cone or sign or caution notification. Please note, I had to accompdate another vehicle coming down the road in

* Follow the direction in your vehicle's owner's manual for rotation and rebalance intervals . In the absence of direction in your vehicle's owner's manual, rotate and rebalance your tires every 7,500 MILES or 12,000 KM.

* Your tires are inflated with nitrogen. Nitrogen stabilizes a tire's inflation pressure more efficiently than regular air. If needed, air and nitrogen may be mixed; return to any Costco for purge and refill to the proper nitrogen purity level if air and nitrogen are mixed. There are no safety concerns with mixing air and nitrogen.

* Tire rotation patterns may be limited if a tread depth difference of more than 2/32nds of an inch is present between the front and rear tires of a vehicle.

vehicle.

* Read and follow all tire maintenance requirements outlined in the Tire Manufacturers' Warranty booklet provided at the time of purchase by hard

copy or by reference to the Manufacturer's website.
* COULD NOT REPAIR TIRE. THE SIDEWALL WAS COMPLETELY SLICED RESULTING IN A BLOWOUT. UPON INVESTIGATING IT WAS ALSO FOUND THAT THE WHEEL WAS DAMAGED ALONG THE BEAD. THE STRUCTURAL INTEGRITY OF THE WHEEL WAS POTENTIALLY COMPROMISED AS WELL AS ITS ABILITY TO HOLD AIR. RECOMMEND REPLACING THE WHEEL.
