

Residents and Businesses,

Scotia C.S.D Water information 3-10-26

Hello all - here is the latest from Scotia C.S.D.

We are still under a Boil Water Advisory .

The Scotia C.S.D. has finished making all the adjustments to the system that were needed. So now the last of the sample tests required by the state have been submitted to the lab and Scotia C.S.D is anticipating the results will be good.

Once the test results are ready, we will be sending them and the final report to the State Water Resources Control board. The control board reviews it and once they are accepted, they can release us from the boil water advisory. A notice will be issued that the advisory has been lifted.

Once results that are at an acceptable level are received the County Health Department will be notified by the State Water Resources Control Board. At that time the County Health Department will reach out to Hoby's Market, Scotia School and Scotia Lodge to confirm the boil water advisory has been lifted

Staff at the Scotia Community Services District
